Email ID: sandeep.bhat@baalya.org

Srinidhi Gopalakrishna

Knowledge Co-ordinator

About you: I am basically a Mechanical Engineer, presently working for an MNC in Bangalore. I have my Masters degree in Engineering from Sweden. Working under different cultural roof has motivated me to know lot about my own culture.

How did you get inspired to do social work: Right educational track is the only means to transform India into a superpower. We the young Indians have to start this transformation. This transformation can be initiated only through a social organization.

Your Aim: To educate young minds by teaching the actual history of India, to make people know about ancient Indian achievements and its importance in present science and finally a dream to see Indigenous India at every footstep. Veda says "yasmin vijñate sarvam vijñatam (That being known all is known)- knowledge is power"

Email ID: srinidhi.bg@baalya.org

Umesh kumar

Knowledge Co-ordinator

About you: A Graduate in Mechanical Engineering and working in aerospace engineering since seven years.

How/Whom you inspired to do social work: Today I am leading a comfort and respectful life in the society its because of my parents who given me education and supported in all my ways. Whenever I walk around city, I found lots of children who are missing their education and struggling in their life to earn their bread. Looking at their pathetic condition, I felt very sad and I made up my mind to help them in whatever way I can. I always strongly believe each individual's contribution is required for India's growth and it is every one's obligation to give back to the society what they possible.

You're AIM: To be a part of the social movement to address the social needs using all available resources and routes, to actualize the social change and maximize the impact for the betterment of the society.

Email ID: umesh.k@baalya.org

Ravi Krishnamurthy

Knowledge Co-ordinator

About you: working as a software engineer from last 4 years in the field of Car Navigation, completed BE in telecommunication

How/Whom you inspired to do social work: Right from my childhood, I always felt that quality of education, education materials or quality of teacher were not so good. We had to struggle hard to learn by ourselves and still method of teaching did not infuse the skills needed for life.

Also, during my stint abroad, I was always wondering what makes Europe so successful and comfortable to live-in compared to India.

It was not money, but their efficiency and sense of responsibility to solve everyday problems innovatively in every area of life which had led to such success. These values were imbibed right from the school.

If India has to become a developed nation, it is necessary to imbibe their values to make our country a better place to live in.

My dream is to deliver quality education using technology to bring about quality education to all schools.

I was inspired by Bangalore Forward forum where corporate took the initiative to make Bangalore a better place.

I was under the impression that I shall make difference to the society may be at the age of 50 years when I will have lot of time and money.

But after coming across Baalya foundation, I realized I can try my hand at making the difference to society at the same time pursue my profession.

You're AIM: To create a platform for people to contribute to the social cause. Inspire and involve huge talented pool of professionals available in our respective profession and involve them to make a difference to the society.

Also, leverage the programs to inspire private sector and government to make a difference to the society.
